Dear Parents/Guardians,

Growing Year Series 2018 for Primary 5

We would like to inform you that the school is conducting a Growing Years Series program for the Primary 5 pupils. It serves as a support program for upper primary pupils to impart knowledge, shape values, influence behaviour and develop coping strategies as they mature.

Trained teachers will be conducting the lessons and pupils will be separated into single-gender classes so that the delivery of the package is customised to gender needs.

Through the various themes of developing an understanding of the growth process and changes in development, coping with interpersonal relationships and protecting them from harm the programme aims to equip pupils with the skills to:

- Make wise, responsible and informed decisions through the provision of accurate, current and age-appropriate knowledge on human growth and the means of protecting themselves from harm.
- Know themselves and to build healthy and rewarding relationships through the acquisition of social and emotional skills of self-awareness, management of thoughts, feelings and actions.
- The develop empathy for others and the skills for effective communication, problem-solving and decision-making skills.
- Develop a moral compass, respect for themselves and understanding that the family forms the basic unit in a society, through the inculcation of positive mainstream values and attitudes about sexuality and growth.

The upper primary years is aimed to support the pupils as they grapple with puberty. The refreshed Primary 5 & 6 Growing Years (GY) package, "Curious Minds (2nd Edition)", aims to meet students' developmental needs, through the teaching of skills and values which will focus on helping students navigate *changes*, build healthy *relationships* and *tackle new challenges* such as online relationships, and *safety*.

Attached with this letter are the topics that will be covered during the Growing Years' Education sessions.
