For Primary Schools

~ Catering to Your Child's Abilities ~

10 September 2024, Tuesday

OUTLINE

1. P4 Subject-based Banding

2. Achievement Levels (ALs)

What is Subject-based Banding (Primary)?

- **Subject-based banding (at P5 & P6) was introduced as a refinement to the streaming process to help each child realise his potential, based on his readiness.**
- **It provides greater flexibility for your child by offering him the option of a combination of **standard** and **foundation** subjects, depending on his readiness.**

Why Introduce Subject-based Banding?

- To recognise that every child is unique, and has different abilities, aptitudes, capabilities and talents.
- To provide a balanced education that caters to the different abilities of each child so that we can prepare him for life.
- To allow your child to focus on and stretch his potential in the subjects that he is strong in while building up the fundamentals in the subjects that he needs more support in.

How does Subject-based Banding works?

At end of P4

School recommends a subject combination based on P4 examination results. Parents select preferred combination.

At P5, student takes subject combination chosen by parents.
